Long-term care (LTC) benefits provided by riders to the policy are intended to provide qualified long-term care insurance under Internal Revenue Code Section 7702B(b). Although benefits paid under a rider are intended to be income tax free as accident and health benefits under a qualified long-term care insurance contract, benefits may be taxable in certain circumstances. For example, benefits may be taxable when the aggregate LTC benefit payments received under a rider and other policies or riders exceed the Internal Revenue Code section 7702B(d)(2) per diem limitation. Clients should consult with an attorney or qualified tax advisor before purchasing Brighthouse SmartCare® and when exercising any right to receive LTC benefits under any rider included with the policy. The policy's death benefit and policy values will be reduced as a result of any LTC ADBR payment.

All policy values will be reduced and any LTC rider will be terminated if a terminal illness benefit payment is made under the policy. Clients should consult a tax advisor to determine the current tax consequences before requesting any terminal illness benefit payment.

Any discussion of taxes is for general information purposes only, does not purport to be complete or cover every situation, and should not be construed as legal, tax, or accounting advice. Clients should confer with their qualified legal, tax, and accounting advisors as appropriate.
